CD 511 THE PASTOR AND CHRISTIAN DISCIPLESHIP

Value - 10 Points
1. Reflect on your spiritual journey responding to the following questions.
   i. What influences have played a significant role in your discipling?
   ii. What do you see as the strengths and weaknesses of the discipling you have received?
   iii. How does your spiritual journey relate to John Wesley’s description of the Way of Salvation?
   iv. What evidences of prevenient grace do you see in your story?
2. As you think of discipling others:
   i. What role will you give to Scripture, tradition, reason, and experience as you assist others in “doing theology”?
   ii. What aspects of a Wesleyan view of persons impress you as being most important for effective discipling, and why?

Grading Criteria
- Significance of reflections on personal experiences of being discipled
- Grasp of Wesleyan perspectives

Assignment #2 - Integrative Group Presentation – Technology in Christian Discipleship - Due April 27, 6:00 pm (5 page summary submitted)

Value - 10 points
Since technology has made such an impact on our society, it seems that a good move would be for the church to start determining ways to use technology in the development of disciples. Part of that obviously is how we use technology in the local church, in the classroom, in the sanctuary. Another part of that may soon be an asynchronous setting – sort of like this ExL classroom. We, the church, should capitalize on technology and innovations, rather than playing catch up to the world. This paper should help you explore those possibilities.

In your groups, you will
A. Decide on a viable way to use technology to disciple Christians
B. Support your theories with readings from the course as well as any other outside sources
C. Submit your paper to me as an attachment to the Office Icon.
D. Class presentation

Assignment #3 - Integrative Paper #2 (Group) – Change in Grace Church - Due May 11, 6:00 pm

Value - 10 points
A typical traditional church – Sunday morning worship, Sunday School, mid-week prayer
meetings for the most committed. This is what they have always done. No one has ever tried to get them to change. Therefore, they see no reason to change. Their philosophy would look something like this (it’s hazy because no one has ever forced them to describe their philosophy):

Win the lost;

Orient the Saints;
Worship God.

(Like that alliteration?) Your task, should you accept this assignment, would be divided into two parts. First, you will create a small group ministry that would reflect both the Wesleyan distinctives as well as your philosophy of Christian Education. The second half of this is to lead your “church” into change using Rogers’ prescription of change. Remember the different types of people you would encounter and think of possible ways to preclude difficulties in the transition period.

In your groups, you will:

a. Create a short version of a theology of CD (Bullet points are good here);

b. Design a discipleship ministry that would provide spiritual growth and enhancement among participants using Wesley’s groups as a starting point;

c. Describe the possible scenario one might encounter in instituting this change and how you would work to produce the desired change.

d. Write this up and agree upon the particulars.

e. Submit your paper to me as an attachment to the Office Icon.

Assignment #4 - Basic Beliefs Creative Presentation – Due May 11, 6:00pm

Value - 10 points

You will work on this project across the semester, processing your learning and refining it into an integrative, creative presentation you could use in your church. As you take notes in class and do your reading, keep a record of the insights that stand out to you as basic beliefs to guide your discipling ministry.

Working from notes you make across the semester, develop 10-12 statements that capture your basic beliefs about effective, disciple making, Christian Education. Statement should be significant concepts, clearly articulated in 15-30 words.

Example: Effective discipling begins with the teacher or parent’s relationship with God (Deut. 6:5-6, Class 9/11/01)
The statements should provide a good overview of the course content. Design the presentation to take no more than 10 minutes and prepared to present to your church administrators.

Begin early to think about the creative medium you might use. We will brainstorm ideas in class. If you choose to develop visuals for the presentation, you will need to make arrangements yourself to get access to the equipment you will need. If you are near Wilmore or Orlando, you may use the library computer lab for editing videos or help in creating your presentations.

The project may be submitted to the professor on a computer disc for power point presentations, video, or in hard copy forms by snail mail.

On **May 11**, you will share your presentation with the class.

**Grading Criteria**

- Clarity of statements
- Significance of belief statements
- Breadth of belief statements
- Creativity of the presentation

Your Creative Presentation is due on **May 11**.

**“A” PROJECT (Contract for an A) - Final Projects - Due May 5, 4:30pm, 2005.**

**Value – 10 Points**

Please speak with your professor about a suitable project. This project will reflect a useful plan for implementation in either a current or possible future setting.

**Exams**

Previously, I have avoided exams like the plague. However, beginning this semester we will have two exams. There will be a mid-term and a final exam. You should consider the mid-term (especially) a learning experience. I will do my best to keep from blind-siding you with the questions and will have the intent of using that as an opportunity to advance your understanding of this subject. So, my exams are not necessarily something to fear but expect to learn from them.

**Exam #1 - 1 hour timed exam to be taken in class - March 23 – Value 10 points**

Value – 20 points
This course is designed to be a collaborative learning experience. You will learn from the textbooks, the “discussions”, the papers, and the tests. However, this is not the only collaboration you will experience. You will be divided up into teams and, with the other members of your group, will collaborate together to accomplish the learning goals of this class. Each of you is responsible for your own learning as well as that of your fellow group members. Therefore, part of your class grade will be reflected in your interaction with each other as well as your participation in the group assignments.

Grading for this is relatively simple. You will be graded on two levels.
1. You will be graded according to your interaction in class. If you choose to sit idly while the rest of the class does the work, your grade will reflect this. On the other hand, if you avail yourself of this setting, you will enjoy a great learning experience.
2. You will also be graded by your fellow classmates in something called a peer review. With the two group assignments, you will be asked to go online and complete a peer review for each of your team mates.
You and I, together with your fellow classmates, will learn what it means to be disciples and disciple-makers.
