**Content**

The Papers of Gilbert James consist mainly of documents from 1915-1985, the bulk of which dates between the mid-1950's and the mid-1970's.

The collection is composed of biographical, proceedings, correspondence, subject files,

literary productions, clippings, printed materials, and photographic materials. Series are arranged alphabetically and are as true to Dr. James' own method of organization as possible.

The largest sections are the subject files and literary productions. Dr. James clearly collected information on a myriad of topics, most of which relate ultimately to urban church ministry. The James collection is a hotbed of information on the Civil Rights Movement and its relation to the Church.
