Introduction

The Christian Holiness Association Delbert R. Rose Historical Collection spans the years of 1801-1985 with the bulk of the collection covering 1900-1969. The collection contains some proceedings, policies, and correspondence, but the majority of the collection is (32 out of 35 boxes) in subject files. Rose served as historian for the Christian Holiness Association (then it was called the National Holiness Association) for many years. During his tenure, he actively solicited and collected many kinds of materials related to the holiness movement and to the Association specifically. Rose intended to write a comprehensive history of the Association. Throughout the collection are notes, manuscripts, and references for the book.

The largest sections, within the subject files, relate to holiness associations and camp meetings from throughout the United States and Canada; biographical information of men and women important to the holiness movement, particularly in the US; denominations related to the holiness movement; and schools which have holiness roots.

The collection is a part of the larger Christian Holiness Association Papers which have been deposited in the Special Collections Department of the B. L. Fisher Library. The collection is available for research. It contains 14 cubic feet of materials.

Biographical Sketch

Delbert R. Rose was born on September 17, 1912, in Corunna, Michigan. He received his B. A. from John Fletcher College (1938); M. A. from State University of Iowa (1941); graduate study at Garnett Biblical Institute, summers of 1944, 1945; Union Theological Seminary, NY (1946-1947); D. D. Kletzing College (1946); and PhD from the State University of Iowa (1952).

He was ordained a deacon in the Evangelical United Brethren Church in 1942 and became an elder in 1945. He has served as an evangelist and Bible teacher in churches, family camps, and bible conferences in most of the United States.

His professional career includes teaching in Kletzing College until Feb. 1946. From there he became part of the founding faculty of Western Evangelical Seminary in Portland, OR, for five years. In January 1952 he accepted a faculty position at ATS holding the Butler-Valade Chair of Biblical Theology. In January 1975 he became a part of the faculty of Wesley Biblical Seminary in Jackson, MS. Although retired, he still continues to teach part time at Wesley Biblical Seminary.

He was married to Dorothy Walter on August 26, 1936. They had three boys (one deceased) and one girl. Dorothy died in 1985. In December 1986 he was married to Susan A. Schultz.

His doctoral dissertation was entitled *The Theology of Joseph H. Smith* and published under the title *A Theology of Christian Experience*. In 1975 it was republished under the title *Vital Holiness: A Theology of Christian Experience*. He contributed regularly to the *Asbury Seminarian* and *The Herald*.

His tenure as official historian for the Christian Holiness Association began in 1951 and ended in 1972. During those years, he actively solicited materials relevant to all aspects of the holiness movement and to the history of the Christian Holiness Association. His goal was to write a book about the history, but was unable to see this in its completion, although some chapters in rough draft format are included in the collection.

Scope and Content

The Christian Holiness Association Delbert R. Rose Historical Collection spans the years of 1801 to 1985. Its particular emphasis is the history of the National Holiness Association for emphasis is the history of the National Holiness Association for the Promotion of Holiness which began in 1867. Later it became the National Holiness Association and present name of Christian Holiness Association and present name of Christian Holiness Association. The bulk of the material is from the years 1900 to 1969. Rose attempted to collect any information on the Association history, local holiness

associations, camp meetings, denominations, schools, mission organizations, affiliated organizations, and people.

Although there are some proceedings, policies, and correspondence the bulk of the collection is Rose's subject files. The correspondence involves correspondence he had with various leaders of the National Holiness Association, such as Myron F. Boyd and Paul L. Kindschi, but it also includes some historical correspondence such as with W. W. Cary and John Duryea.

The subject files are arranged topically by alphabetical order. There are some original materials, but many of the periodical articles are photocopies from the originals. These, however, are for the most part well documented as to date and name of periodical. Included within the subject files are correspondence, proceedings, literary productions, printed materials, photographs, etc., as they pertain to the topic. Also scattered throughout out the subject files are literary productions by Rose, which for the most part were printed in *The Herald* for a column he wrote entitled "The Historian's Corner." These are found in the topic which he was writing about.

Some of the topics which are most carefully documented in the subject files include the following:

1. Associations and Camp meetings-Includes forms filed by the associations or camp meetings for the late 1930's, 1950's, and 1969. Periodical clippings are primarily from the late 1800's and early 1900's. Includes programs for camp meetings, of which the Florida Holiness Camp, Indian Springs, Iowa Holiness Association, Kentucky Central, Mountain Holiness Associations, Detroit Holiness Association, Simpson Park Camp, Vineland Camp, Camp Sychar, Hollow Rock Camp, and Bentleyville Camp are the most documented.
2. Biography-Includes biographical data and literary productions primarily. Those names which more was collected about include: John L. Brasher, Harold B. Kuhn, Paul S. Rees, and Joseph H. Smith from the presidents of NHA biography section.
3. Conventions-Documentation of conventions from 1872-1972.
4. Denominations-Scattered periodicals and biographical information.
5. Missions-Literature, proceedings, and biographical information.
6. Schools-Documentation, including brochures/proceedings of holiness schools.

Finally, the collection has lists of members, camp meetings, schools, presidents of NHA, periodicals, and schools. In the printed materials section are periodicals which were published by the National Holiness Association/Christian Holiness Association. This is not a complete run of their publications, but only those which Rose was able to collect. A complete run is available from the Christian Holiness Association Papers.

Although no one topic (as listed above) is covered in its entirety, this collection would give the researcher a starting point for researching in more depth some of the areas which Rose covered. In many cases, he gave names of contacts for more information or periodicals, and books where more research could be done. Another value of the

collection is getting a broad overview of how the holiness movement affected the lives of the average person, through the camp meetings, associations and schools during the first half of this century. Perhaps of greatest significance in the biographical section are the literary productions of Joseph H. Smith, including some original sermons. It is also significant to look at this collection and be able to see Rose's personality and interests show as his input and literary productions are scattered throughout the collection.

The weakness of this collection is that it is limited to what Rose was able to accumulate. Because his interests were so wide, he tried to get a little information about *many* aspects of the holiness movement- therefore, he was not able to specialize in any area. Rose took his position as historian very seriously, but no attempt was made before him to collect historical information as it related to the association and it seems that no one is making a serious effort since his leaving the position. Therefore the historical collection of the Christian Holiness Association is limited to a time period when Rose was active.
