Introduction

The Frank Bateman Stanger Presidential Papers span primarily the years of 1959-1986. These years include his service as Executive Vice-President (1959-1962), President (1962-1982), President Emeritus (1982-1986), and Professor of Pastoral Work and Preaching (1959-1986). The papers also include the materials from his editorship of The Herald, later to become the Asbury Theological Seminary Herald, spanning the years of 1975-1982. As had been his request, the papers were given to the Seminary Archives by the Stanger family.

The collection is composed of proceedings, policies, correspondence, subject files, reports, literary productions, scrapbook material, printed material, photographic material, and audio recordings. The correspondence provides insight into the diverse population with whom he corresponded as president. The subject files contain material from almost every area of the seminary and from organizations closely related to the Seminary or Dr. Stanger's professional life. The proceedings are significant because of the Board of Trustees and Officers of Administration minutes which provide insight into the Seminary.

The majority of the collection may be used with the permission of the Seminary Archivist. Certain sensitive portions of the collection will remain closed and more recent administrative records will not be opened for general use until they are twenty-five years old. Permission to publish a book length work from materials within the Stanger Collection will require the approval of the Seminary Archivist and a representative of the Stanger family. This condition will remain in effect as long as any of Dr. Stanger's children survive. The finding aid was prepared by Linda E. Deeks in September 1988.

Biographical Sketch

Frank Bateman Stanger, son of Francis A., Jr. and Sarah Bateman Stanger, was born on August 31, 1914 in Cedarville, NJ. His education began in the public schools in Cedarville and Bridgeton, NJ. After graduation he traveled to Wilmore, KY where he attended Asbury College. Graduating with an A.B. degree (magna cum laude) in 1934, he spent another year in Wilmore studying at Asbury Theological Seminary (1934-1935). He then went to Princeton Theological Seminary from which he earned his Th. B. in 1937. Furthering his studies at Temple University School of Theology, he received his S.T.M. in 1940 and his S.T.D. in 1942. In addition he received honorary degrees from Philathea College, D.D. (1953); Houghton College LL.D. (1962); Asbury College, L.H.D. (1970); Asbury Theological Seminary, D.S.L. (1982).

While studying at Asbury College he met and fell in love with Mardelle Amstutz. On June 2, 1937 H. C. Morrison, president of the Asbury Institutions, officiated at their marriage. Into their home three children were born: Marilyn (Mrs. John Woodruff) in 1939, Frank, Jr. in 1944, and Jane in 1948.

Dr. Stanger began his ministry at a mission charge, Union Church in High Bridge, Kentucky. In 1935 he received his first appointment in the New Jersey Conference of the Methodist Episcopal Church and in 1936 was admitted to that conference on trial. Two years later he was elected to full membership. From 1935 to 1959 he served seven churches in the New Jersey Conference: Woodruff and Rosehayn (1935-1936); Aldine (1936-1938); Pedricktown (1938-1941); Woodstown (1941-1944); Haddon Heights (1944-1951); and First Church, Collingswood (1951-1959). While in New Jersey he was also active in conference activities.

During his years in New Jersey he received several offers for employment from both Asbury College and Asbury Theological Seminary. These offers were for professorships and administrative positions. Before his death, H. C. Morrison wrote Dr. Stanger indicating his desire for FBS to come to head the Seminary after he earned his doctorate. J.C. McPheeters later approached FBS about the position of Executive Vice-President; accepting the position, he began

in the fall of 1959. In this position Stanger trained for the presidency which he assumed upon McPheeters retirement.

FBS served as president of Asbury Theological Seminary from 1962-1982. During this period he provided excellent leadership which resulted in growth in every area of the Seminary. This is demonstrated in the following statistics: enrollment increased from 257 to 783; faculty increased from 22-48; physical facilities increased from six major buildings and 40 apartments/duplexes to 14 major buildings, 56 apartments/duplexes, President's home, three missionary homes, and the acquisition of 50 acres of land for housing; and a growth in assets from \$6,309,063 to \$19,504,955. Dr. Stanger was President Emeritus from 1982-1986.

In addition to his administrative positions he also served as Professor of Pastoral Work and Preaching from 1959 until his death in 1986. In this position he taught courses on preaching, The Life and Work of the Minister, Healing and the Christian Religion and United Methodist Polity and Discipline. In addition he also served as an advisor for Doctor of Ministry students and as a field supervisor for Supervised Ministries.

Retirement found Dr. and Mrs. Stanger moving to a new home in Lexington, Kentucky. He continued teaching at the Seminary and was in great demand for speaking engagements. Many of these speaking engagements were in the areas of spiritual formation and healing. The healing ministry of the church was an area of study and expertise for Dr. Stanger.

Dr. Stanger was also an author. Among his books include [A Workman That Needeth Not To Be Ashamed](#), [Would You Be Made Whole?](#), [He Healed Them](#), and [God's Healing Community](#). Numerous articles and editorials were also published particularly in [The Herald](#).

Dr. Stanger died on April 17, 1986 following a battle with cancer.

Scope and Content

The Frank Bateman Stanger Presidential Papers span the years from 1933-1986; however, the bulk of the material covers the years 1959 to 1986. These are the years FBS served the Seminary as Executive Vice-President (1959-1962), President (1962-1982), and President Emeritus (1982-1986). Also during these years he was Professor of Pastoral Work and Preaching; and from 1975-1982 editor of The Herald. Because of the arrangement of his files, the materials from each position are together within the series.

Because the Special Collections Department of the B. L. Fisher Library also contains the personal papers of FBS, all biographical materials may be found there. The **Proceedings Series**, which compose 13 cubic feet of the collection, includes ATS Supervisor minutes, Officers of Administration minutes, Board of Trustees minutes and Board Committee minutes. The records of both the Officers of Administration and the Board of Trustees meetings are quite complete and provide excellent insight into the Seminary.

The **Correspondence Series**, composed of 20.1 cubic feet, is the second largest series. It is divided into nine sections: General, Board of Trustees, Citations/Congratulations, Donors, Faculty, Honorary Degree Recipients, Officers of Administration, Regional Representatives, and Staff. Each of these sections while present in the original organization of the papers, has been brought together from throughout the collection. If deemed appropriate, correspondence for various institutional events or building construction, for example, has been left where originally located. Usually this correspondence will be found in the Subject Files of the collection. The series also contains a few letters pre-dating 1959.

In the series, he corresponds with a diverse population including prominent church leaders of denominations served by ATS and leaders of organizations associated with the Seminary. Correspondence with outstanding leaders such as E. Stanley Jones or with persons making significant contributions to the Seminary like Ralph and Dwight Beeson or Mona C. Tharp can also be found. The correspondence, in particular with the board members, shows the development of relationship between FBS and significant persons in the life of the Seminary.

Providing insight into both FBS's serious and humorous qualities, the correspondence is both enjoyable and informative to read.

The **Subject Files** compose almost half, 26 of 58 cubic feet, of the collection. While the largest series, it is also the most diverse. Twenty-five subjects are dealt with. The organization of most subjects is evident; however, the organization of ATS Administration deserves some explanation. When processing began the arrangement of this material seemed unclear. After further study and work, it was determined that the arrangement of the files followed the organizational structure of the Seminary. Because the structure had several major changes during FBS's presidency and because not all the old materials were completely converted to the new arrangement, items sometimes seemed misplaced. Taking the organizational structure of Seminary as a base for the organization of the files, the organizational chart of the Seminary (see page 6) in effect at the time of FBS's retirement (1980) was used as a guide for completing the organization of the ATS Administration subject files.

In the ATS subseries are the everyday workings of the Seminary; buildings are designed and built, programs devised and implemented. In the ATS Administration--Academic sub-subseries, all the materials dealing with the Faculty are located. The sub-subseries on TEAM-A is extremely interesting concerning the formation of this alliance. The Association of Theological School is the accrediting agency of the Seminary. This sub-subseries contains the information dealing with the Seminary's loss of accreditation and later re-accreditation. The subject files, while diverse in organization, contain a wealth of information.

The **Literary Productions Series** in this collection contains addresses, article, editorials, notes and various other items written by FBS for his use as Seminary President. The editorial subseries contains a complete set of editorials written for The Herald/The Asbury Theological Seminary Herald while he was editor. The addresses subseries contains several of the addresses given by FBS which were later printed. Another source of FBS's literary productions is his personal papers also held by this department. All his materials on healing are contained in the personal papers.

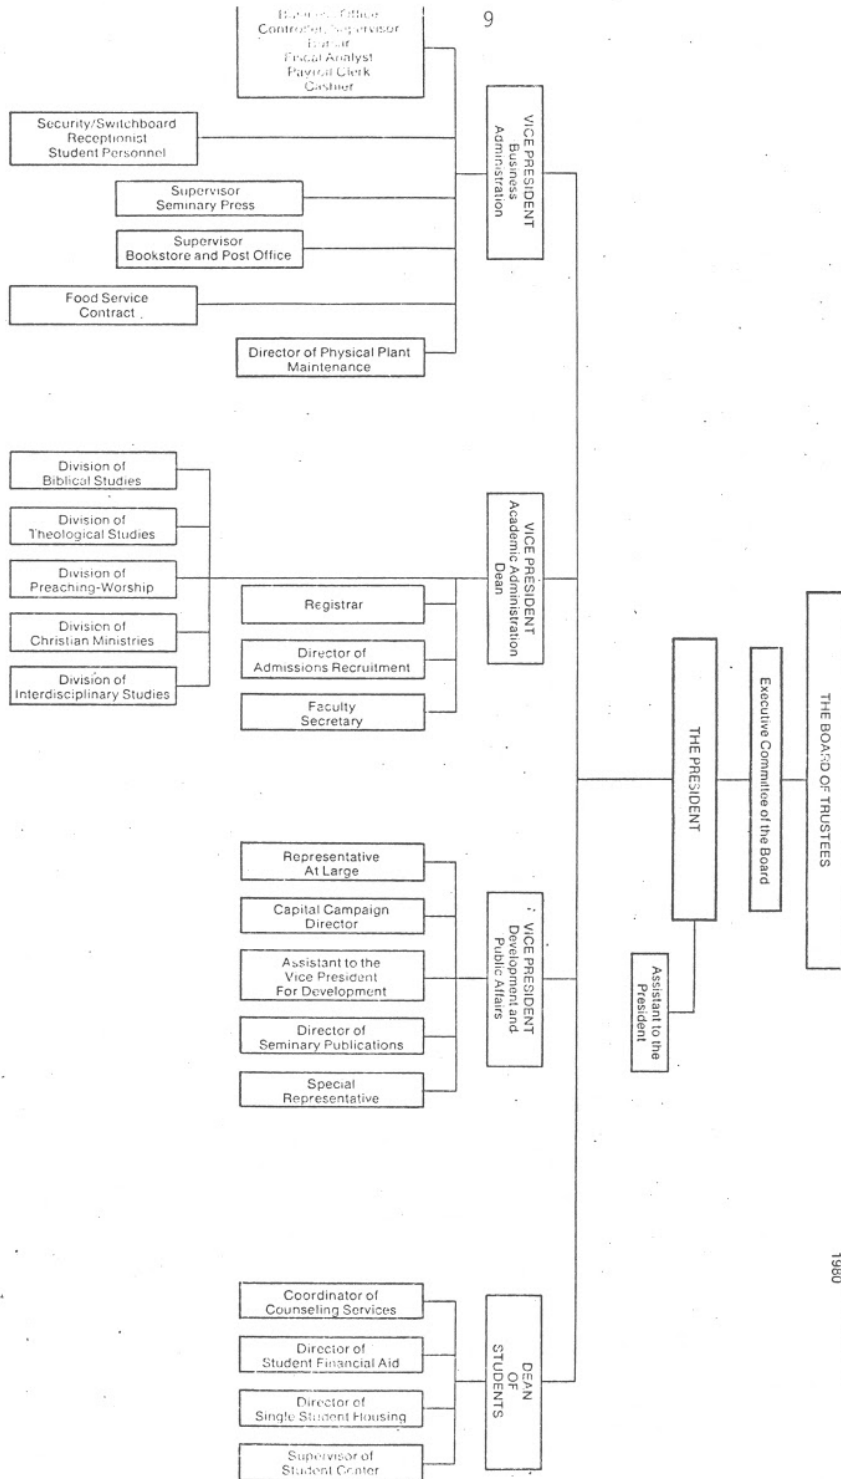

Similar to the arrangement of the correspondence, the **Printed Materials Series** has five sections: General, Board of Trustees, Faculty, Officers of Administration and Students/Alumni. This series contains newsclippings, articles, papers, sermons, memoirs, and addresses grouped by individual. The items whether written by or about the individual have been placed together. Many of the same individuals included in the correspondence series are present here.

All photographic materials except the woodcuts found in the **Photographic Materials Series** have been added to the Photo File of Special Collections. The audio recordings collected by FBS

of his own works have been placed in the **Audio Recordings Series**. A list of tapes housed in the Instructional Media Center of ATS is also included in the series.
