Richland,
Nov 8th

My beloved Hannah

I have had a
letter on the 10th to
write for some time, but
have not handed it,
for I wanted to tell thee
of the unusually
successful Temperance
Gospel Mission here
last week, when Ellen
Gordon was our guest
and she devoted 15
days, with surpassing
energy to stirring up
the neighborhood
to ourselves also. You
have certainly got

A Most able advocate
at the head of that
Department for the
Learners have an
unlimited number
of them, and an excellent
Learner free from the
spirit of prejudice
& antagonism which
is apt to raise prejudice
due. One iron room
was crammed for the
Bible Reading in the
Apt. Unfortunately
I had no chance to
share in any of them,
having had bronchitis
which is slow in giving
back my hard-
work, though I never
was more free from

the maternal bible
keeper house. When
Miss Gleft, 70 good
people gave in their
names as BWT mem-
bers besides 25 new
pledgers. Emma is
delighted, 2d, for her
as her delicate fabric
had made it for middle
to her. She has I believe
obtained the kind
promise to be present
one of the coming
meetings; and of
course with such
large array as and
cheer my old heart?

This reminds me
that I have not yet

Wanted three or 2
copies of Miss Willard's
address which has
opened out before me
quite a wide view
known country in
the result of definite
methods & resolute
work such as may well
inspire & also shame
your more tethered
sisters in Est. Britain
I will just add that
if at any time way
opens for her to accom-
pany thee here, I sh^d.
feel it a privilege
to see & know her.
I think the near
departure of the BWT,
as refreshing in the

"First Annual Leaflet"
will be most useful,
for one sees at once
who to apply to; to that
no scrap or thought
likely to promote the
Cause need be lost.
I have already availed
of the "Press Department" and
Miss Moore some
papers on Christian
traces, ^{which} which I have
used for some years,
in hopes she may have
them printed for distribu-
tion; and of Miss
Sheldon's Department to get
more of the leaflets and
book "Science of Mother
Work", & "Every day
Religion" but I am

Sorry to find she
is out of the latter.

I must not end
without telling
you that I have
ventured to give a
note of introduction
to thee, to a very
earnest & good Indian
Missionary, Miss
Laura, of the Zenos
Mission, who has been
greatly helped by the
"Lifted" 3 yrs
ago, and who was
most eagerly delight-
ed when she found
I had been closed

there "Oh I would give
anything to see her!"
I felt that every paper
in that book provided
at once! & she greedily
accepted a dozen
or two of the subsequent
leaflets that she had
never heard of. I
hope they will help
her on some point
which I think she does
not yet see that to dislike
a thing is not necessarily
a sign that it is a duty
in her dread of pass-
ing herself or self in
culpability. She is
going about the country
as the Dictator did

Society holding meeting
I feared she might
have no time to call,
but I told her at any
rate to keep my note
for the chance
her address would be

she is a first rate speaker
and a hearty out-spoken
woman. She was here only
for one night last. I think
I am not mistaken in her
friendship, until
we can have a talk -
