INDIAN SPRINGS HOLINESS CAMP GROUND

STATEMENT ON SPEAKING IN TONGUES

Whereas, there has come to be a new revival of speaking in tongues in our day, and

Whereas, this movement is infiltrating all segments of society, and many denominations, and

Whereas, it is the position of the Indian Springs Holiness Camp Ground Board of Trustees that, according to the Scriptures, two cannot walk together unless they be agreed,

Therefore:

1. All who accept Christ are a part of His Body, the Church. Those who have exercised saving faith and who are a part of the modern charismatic movement should not be un-Christianized. However, since Christ's work is better furthered by people of like persuasion working together, we believe that those who participate in and/or propagate speaking in tongues should share and declare this belief in institutions other than Indian Springs Holiness Camp Ground.
2. Indian Springs Holiness Camp Ground shall not schedule speakers to any of the pulpits or positions of leadership who participate in and/or propagate speaking in tongues and the pulpit committee shall operate very carefully under these guidelines. This is to apply to the youth workers, counselors, missionary speakers, and cottage holders as well. The ministry of the bookstore to be similarly governed.
3. That all present and future Board of Trustee members endorse and support this position.

This position is taken without criticism or lack of love for those who believe differently.
