Introduction

Welcome to the Professional Foundations of Christian Education learning adventure. Are you ready for this learning adventure? If you are a bit anxious, just relax, and remember, we're in this together! I really enjoyed teaching on-line the past two years. I have to admit that both years I was surprised by the depth of meaningful interaction as well as the community building that occurred. I am looking forward to getting acquainted and building meaningful relationships as a class. Let's ask God to guide us on this educational-technological journey, and expect the Holy Spirit to work among us as we invest ourselves in this learning endeavor. Life is short, so let's get started. First, read the syllabus carefully, and then move to Module 1.

What we can expect from each other

As we venture together down this path of on-line learning, there are a few things to keep in mind: 1) "The only dumb questions are the ones not asked". Ask and you will receive all the help I can give you. I am usually a kind, helpful person. I will do my best to respond to your needs as soon as possible; 2) I will do my best to communicate everything as clearly as possible. You must let me know if you do not understand my messages; 3) God has blessed us with the privilege of working together for sake of Christ. Let's determine to make the most of this opportunity; and, 4) If you happen to have moments during the course that you feel anxious or overwhelmed, close your eyes and repeat the following: "All shall be well, and all shall be well, and all manner of thing shall be well." (Julian of Norwich) We will share our prayer concerns in the prayer center, and I will do whatever I can to support you.

Posting On-line

When posting assignments and responses online it is important to pay attention to "how" your post will be read by others in the class. Be thoughtful with each response and always provide high quality posts, whether those are

insights you have gleaned or questions you put forth from your dealings with the material and your experiences. Please DO NOT post such messages as "I agree", or "Good response", etc... I am looking for thoughtful, reflective responses that show me you are dealing with the material. Responses in the form of questions are always welcome. (Remember, the only "dumb" question is the one not asked.) A portion of your grade will reflect the quality of your responses in our Discussion Center and Team Folders (if we use these).

Please limit your Discussion Center postings and replies to 300 words, unless otherwise noted in the Module instructions. Being concise is a must!

In an online classroom, each of us will bring our experiences to the table - and this can be a powerful learning tool! Remember this, Christ-like humility involves a teachable spirit. We are not here to just impart out wisdom upon one another, we are here to learn from one another. I will lead and facilitate this learning process and trust that you will enjoy the learning experience.

Where to find me

Please post all course related postings and questions in the Discussion Center. This will be our "classroom" where we can all "hear" and respond to the entire class posts, just as we could in an on-campus course. You may send any private correspondence to me through the "To Office" icon in our classroom. Please only send private correspondence to the Office that you don't wish others to see. Do not ask general course related questions here. Post those questions to the Discussion Center so that others will be able to see them and my answer to them. I will encourage you to write to me from time to time by requesting that you post a response to the Office. So please don't feel that it is an intrusion or bad thing to do.

In case of an emergency, please send a message to the Office icon in our classroom and Cc the message to my personal Asbury account, and mark the subject as URGENT! I will read this email immediately and respond as necessary. My home phone number is (859) 223-6244, we are on Eastern Standard Time.

I will check my online correspondence regularly Monday through Thursday. I'm sure that on occasion I will need to be away from my desk and unavailable to be online. When that happens, I will let you know and I will also inform you when I will be back online so that you can better plan our conversation times. Why don't you do the same for me? Please send a message to our Discussion Center telling us that you will be away for a time. That way we can pray for you too! Don't be shy about asking me questions; others are probably as interested in the answers as you are. Please be aware of the limitations of trying to communicate through this medium and give others a chance to express themselves as well.

Professional Foundations of Christian Education is a three-hour course that meets for a total of fourteen weeks. This course requires 107 hours of student involvement. If you can set aside approximately 8 hours per week for course work, you should do just fine. The way to succeed in a class like this is to try to spend time online (in our classroom) at least everyday, or every other day.

Course Purpose

The ATS catalog describes this class as "an examination of the key ideas set forth in the writings of 30 significant contributors to the development of Christian education, as a field of study and as an arena for the practice of

Christian ministry". In other words, this course explores the development of Christian education from ancient times up to our present postmodern world. Historical, theological, and educational issues will be identified as well as the relationship between these issues and the future of Christian education. Understanding the birth and development of Christian education throughout the centuries is essential for a much needed educational renaissance. Together, we will allow the voice and vision from history to enrich and envision our professional efforts in the church today.

Course Objectives

The goal of this course is that you will:

1. become well-acquainted with the major movements and figures in the history of Christian education
2. envision ways in which historical studies may inform contemporary Christian education practice
3. develop lenses and skills for critical response and analysis of Christian education theories
4. come to understand the historical, theological, and philosophical bases for professional understanding of Christian education

Required Reading

A History of Christian Education by Reed and Prevost is an excellent reading investment. It largely covers the history of Christian education in early centuries.

Sourcebook of the Christian Faith: Primary source readings from the history of Christian education (latest edition), edited by Robert F. Lay, Taylor University, 2004.

Augustine and the Catechumenate by William Harmless

The Big Little School: Two Hundred Years of the Sunday School, by Robert W. Lynn and Elliott Wright

Recommended Reading

Models of Religious Education: Theory and Practice in Historical and Contemporary Perspective by Harold Burgess

Philosophy of Education

It is necessary for me to describe some of my beliefs about education since my views on education will guide the shape of this course. I believe that in order for something to be called education, it must be truly educative. Transmitting bodies of information and rules or values collected in the past does not equal education. Education involves movement beyond limitations, and frees people to live life more fully as God intended. Education involves people in co-explorer relationships, problem solving, and personal ownership in the learning experience.

The learning experience in this on-line class will be based on this philosophy of education that calls for participatory, interactive, reflective, bilateral, and dialogical learning activities. For example, you will be asked to reflect on, and openly discuss, your personal experiences and understandings related to various topics. Your presence and enthusiastic participation in all on-line class activities will determine the value of your learning experience.

Course Evaluation Procedures (Your grade will be based on how well you complete the following requirements.)

Requirements:

1. Regular and frequent postings in the discussion center (10%).
2. Reading Reflection Papers (25%).
3. One Short Report (15%).

Written Report Due: Friday, September 30

The Ancient Catechumenate and the Postmodern Church

In this paper you will discuss the relationship between the ancient catechumenate and the educational practices in a specific congregation today. There will be three parts to this five page paper: 1) a description of the educational practices in a congregation of your choice (you may find it convenient and beneficial to focus on the congregation you are currently participating in); 2) a description of the catechumenate in the early church; and 3) a critical comparative analysis with suggestions on how/what the church of today can learn from the ancient educational/formational church practices. Please organize your paper according to these three parts.

4. On-line Debate

Scheduled: October 25 - October 28 (Debate should continue from Tuesday through Friday.)

Everybody Ought to Go to Sunday School?

In this on-line debate, you will present a persuasive argument for why the Sunday School is or is not needed today. Your argument will be based on ideas and insights gleaned from the history of the Sunday School movement (18th through early 20th century). In this debate you will refer to some of the formational dynamics of the Sunday School movement, and argue for or against the significance of these dynamics for the church today.

4. One Major Seminar-Type Research Report

Paper Due: December 2

This research paper will focus on a major figure or movement in the history of Christian religious education. The report must include significant biographical information and a thoughtful discussion of the figure's beliefs and practices regarding Christian education as well as the relationship between the biography and their theory and practice of Christian education. In other words, it would be beneficial to identify the ways in which people, events, historical context, and other gave shape to their expression of Christian education. The reports must also demonstrate the historical impact of these major figures including the significance of their life and work in contemporary practice of

Christian education. Describe the central vision of the person/movement, the impact of the vision, and practices/discipline/activities/strategy/passion that enabled the birth/realization of the vision. The written report should be twelve to fifteen pages.

Each participant (you) is asked to take an intensified research and teaching role for one of the seminar topics. The participant will take responsibility for posting a presentation/discussion of your topic in the discussion center on an assigned day. The teaching should include some biographical insight and a presentation of related historical context, significant contributions and developments, and supplementary bibliography. Creativity and class participation in your presentation is encouraged. In this presentation, you will **not** post your entire twelve to fifteen page report however, in your teaching presentation, you will need to highlight the major ideas and insights for the class. The report and teaching must demonstrate the historical impact of the major figure/movement, particularly for contemporary practice of Christian education. It is important that you identify the ways in which your study challenges your current/future theory and practice of Christian education.

Through these reports, you will demonstrate your understanding of a major figure/issue/practice/movement in the history of Christian education as well as the significance of this figure/issue/practice/movement in contemporary practice. These reports will aid in the development of critical analysis skills and provide insights on the historical, theological, and philosophical bases for a professional understanding of Christian education.

All reports must include appropriate footnotes and a bibliography with a minimum of five scholarly sources in addition to/other than the required texts (either primary or secondary sources, books or journal articles). Please plan to use the required readings as possible sources for these reports. Opportunities to discuss the issues that are central to these reports will be provided in our on-line class discussions.
